## SUMMARY

Front-End Web Developer leveraging a background in Sales and Management to build a more intuitive user experience on the web. Recently earned a certificate in Full Stack Web Development from the University of Connecticut, with newly developed skills in HTML, CSS, JavaScript, React.js, and responsive web design. An innovative problem-solver with strengths in organization, time-management, and collaboration. Excited to leverage skills in the future as part of a fast-paced, quality-driven team to create more meaningful web applications

## TECHNICAL SKILLS

**Frontend:** HTML5, CSS3, JavaScript, jQuery, Bootstrap, AJAX

**Backend**: MongoDB, MySQL, React.js, Express.js, Node.js

**Applications:** GitHub, Git Bash, Heroku, Visual Studio, Brackets.io, Slack, Office

## PROJECTS

### My Garage -
https://github.com/smaji08/mygarage-kaera | https://lit-scrubland-58683.herokuapp.com/

- MERN stack application. This app helps a consumer with decoding the vin number for their car, scheduling an appointment with a mechanic, and supplies a parts catalog with secure payment gateway.
- Responsible for the buildout of the Parts Catalog page with secure payment gateway.
- HTML, CSS, JavaScript, MERN Stack, react-bootstrap, Stripe Secure Payment Gateway, Heroku deployment.

### Financial Tracker
https://github.com/zvlu/FinTRack | https://serene-scrubland-32480.herokuapp.com/

- An app which allows users to track the Income/Expenses and allot portion of Income reserves into Savings/Stock
- Integrating and functionality of npm package Chart.js, styling of pages, header and footer, deploying to Heroku
- HTML, CSS, Bootstrap, Node.js, Express, MySql, Sequelize, Chart.js

### Employee Directory
https://github.com/Lawna12/employee-Directory | https://lawna12-employee-directory1.herokuapp.com/

- An employee directory built with React that enables you to break up your application's UI into components, manage component state, and respond to user events.
- Implemented Sort and filter function of a table in a React app
- React.js, JSX, CSS, Heroku

Pizzetta- Mystic, CT                                                                                    *May 2015 – Present*
**Bartender/Bar Manager**
- Established an excel template to improve the checking of inventory and ordering process for all alcohol products.
- Mapped a diagram for beer board to ensure consistency and diversity of draft options.
- Responsible for the creation of drink menus and specials.
- Worked to increase revenue and profit margins by setting prices of drinks, ordering of alcohol, and selling of specialty items to the best Pizzetta has ever seen.

ACL Estate Service- Pawcatuck CT                                                          *Nov 2015 – Nov 2016*
**Owner/Manager**
- Built a successful company from the ground-up utilizing years of small business development and networking experience.
- Successfully managed multiple crews for de-clutters, liquidations, and photography.
- Knowing when to call in an appraiser for higher end items and which venue would best support its market.
- Management of payroll, advertising, balancing banks for liquidations. Correct analysis for job bids to include labor hours, materials, taxes, dumpster/storage container needs and liquidation potential.

Wireless Zone- Groton, CT                                                                  *October 2010 – March 2014*
**Sales Team Lead/Small Business Developer**
- Customer service approach has led to many repeat customers and substantial referral business.
- Consistently hit above sales mark objectives. Multiple sales contest winner, franchise wide.
- Competence, work ethic, and motivation has made it possible to take on management related challenges beyond my level of assignment, including but not limited to opening and closing duties, overview of daily sales, ordering and organization of inventory, reporting nightly store sales numbers, and assistance/training of other team members.
